FINANCIAL STATEMENTS
for the year ended June 30, 2014
AUDITORS’ REPORT TO THE MEMBERS

We have audited the annexed balance sheet of MUGHAL IRON & STEEL INDUSTRIES LIMITED (“the Company”) as at June 30, 2014 and the related profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof, for the year then ended and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

It is the responsibility of the Company’s management to establish and maintain a system of internal control, and prepare and present the above said statements in conformity with the approved accounting standards and the requirements of the Companies Ordinance, 1984. Our responsibility is to express an opinion on these statements based on our audit.

We conducted our audit in accordance with the auditing standards as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the above said statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the above said statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the above said statements. We believe that our audit provides a reasonable basis for our opinion and, after due verification, we report that:-

a) in our opinion, proper books of account have been kept by the Company as required by the Companies Ordinance, 1984;

b) in our opinion:
   i) the balance sheet and profit and loss account together with the notes thereon have been drawn up in conformity with the Companies Ordinance, 1984, and are in agreement with the books of account and are further in accordance with accounting policies consistently applied except for the changes in accounting policies as disclosed in note 3.23 to the accompanying financial statements, with which we concur;
   ii) the expenditure incurred during the year was for the purpose of the Company’s business; and
   iii) the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects of the Company;

c) in our opinion and to the best of our information and according to the explanations given to us, the balance sheet, profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof conform with approved accounting standards as applicable in Pakistan and give the information required by the Companies Ordinance, 1984, in the manner so required and respectively give a true and fair view of the state of the Company’s affairs as at 30 June 2014 and of the profit, its cash flows and changes in equity for the year then ended; and

d) in our opinion, no Zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 [XVIII of 1980].

The financial statements of the Company for the year ended June 30, 2013 were audited by another firm of auditors whose report dated October 2, 2013 expressed an unqualified opinion with an emphasis of matter para thereon.

NOTES TO AND FORMING PART OF THE
FINANCIAL STATEMENTS
for the year ended June 30, 2014

1.  THE COMPANY AND ITS OPERATIONS

Mughal Iron & Steel Industries Limited ("The Company") was incorporated on February 16, 2010. The Company is registered as an unlisted public Company in Pakistan under Companies Ordinance, 1984. The registered office of the Company is situated at 31-Shadman-I, Lahore. The Company is principally engaged in the business of manufacturing and trading of mild steel products.

2.  BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan, the requirements of the Companies Ordinance, 1984 (the Ordinance), and directives issued by the Securities and Exchange Commission of Pakistan (SECP). Approved accounting standards comprise of such International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984. In case requirements differ, the provisions or directives of the Companies Ordinance, 1984 shall prevail. The Company is in the process of listing its securities on stock exchanges, therefore, the management has voluntarily complied with Fourth Schedule of the Companies Ordinance, 1984 for disclosure requirements.

2.2 Overall valuation policy

These financial statements have been prepared under the historical cost convention except as explained in relevant notes, if any.

2.3 Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (the functional currency), which is the Pakistan Rupee (Rs.).

2.4 Critical accounting estimates & judgments

The preparation of these financial statements in conformity with approved accounting standards, as applicable in Pakistan, requires management to make estimates, assumptions and use judgments that affect the application of policies and reported amount of assets, liabilities, income and expenses. Estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates underlying the assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affect only that period, or in the period of revision in future period if the revision affects both current and future periods.

Judgments and estimates made by the management that may have a significant risk of material adjustments to the financial statements in subsequent years are as follows:

i) Residual values and useful lives of Property, plant and equipment (Note. 3.3)

ii) Provision for slow moving and obsolete stores and spares and stock in trade (Note. 3.4 & 3.5)

iii) Estimated liability in respect of staff retirement benefits (Note. 3.19)

iv) Provisions against doubtful balances (Note. 3.6)

v) Taxation (Note. 3.1)

vi) Fair value of investments classified as ‘available for sale’ (Note. 3.18)
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended June 30, 2014

2.5 Revised standards and amendments/interpretations/improvements to existing standards that are effective in the current period

The Company has adopted the following revised standards and amendments/interpretations/improvements to approved accounting standards as applicable in Pakistan, which became effective for the current year:

(i) “IFRS - 7 - Disclosures — Offsetting Financial Assets and Financial Liabilities”. Amends the disclosure requirements in IFRS 7 Financial Instruments: Disclosures to require information about all recognized financial instruments that are set off in accordance with paragraph 42 of IAS 32 Financial Instruments: Presentation. The amendments also require disclosure of information about recognized financial instruments subject to enforceable master netting arrangements and similar agreements even if they are not set off under IAS 32. The IASB believes that these disclosures will allow financial statement users to evaluate the effect or potential effect of netting arrangements, including rights of set-off associated with an entity’s recognized financial assets and recognized financial liabilities, on the entity’s financial position.

(ii) IAS 19 (revised) ‘Employee Benefits’ has eliminated the corridor approach and requires to calculate finance cost on net funding bases. The Company has applied this change in accounting policy retrospectively in accordance with IAS 8 ‘Accounting Policies, Changes in Accounting Estimates and Errors’ and recorded unrecognized actuarial losses net of taxes associated with retirement benefit plan by adjusting the opening balance of unappropriated profit and retirement benefit for the prior years presented.

(iii) Annual Improvements 2009-2011 Cycle
   i) IAS 1 — Clarification of the requirements for comparative information
   ii) IAS 16 — Classification of servicing equipment
   iii) IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine
   iv) IAS 32 — Clarify that tax effect of a distribution to holders of equity instruments should be accounted for in accordance with IAS 12 Income Taxes
   v) IAS 34 — Clarify interim reporting of segment information for total assets in order to enhance consistency with the requirements in IFRS 8 Operating Segments

The adoption of the above amendments, revisions, improvements to approved accounting standards as applicable in Pakistan did not have any effect on the financial statements except for IAS-19 employee Benefits (Revised) which has been disclosed in Note. 3.23 to these financial statements.

2.6 Amendments/interpretations to existing approved accounting standards that have been published but not yet effective

The following amendments / interpretations with respect to the approved accounting standards as applicable in Pakistan would be effective from the dates mentioned below against the respective standards / interpretations.

(i) "IFRS 32 Offsetting financial assets and financial liabilities “ - (effective for periods beginning on or after January 1, 2014). These amendments address inconsistencies in current practice when applying the offsetting criteria in IAS-32 Financial Instruments: Presentation. These amendments clarify the meaning of `currently has a legally enforceable right of set-off`: and that some gross settlement systems may be considered equivalent to net settlement.

(ii) "IAS-36 Impairments of assets - recoverable amount disclosures for non-financial assets “ - (effective for periods beginning on or after January 1, 2014). These narrow-scope amendments address the disclosure of information about the recoverable amount of impaired assets if that amount is based on fair value less cost of disposal.
“IFRIC 21 Levies - an interpretation on the accounting for levies imposed by Governments” (effective for periods beginning on or after January 1, 2014). IFRIC 21 is an interpretation of IAS 37 Provision, Contingent Liabilities and Contingent Assets. IAS 37 sets out criteria for the recognition of a liability, one of which is the requirement for the entity to have a present obligation as a result of a past event. The Interpretation clarifies that the obligating event that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment levy.

“IAS-39 Financial Instruments: Recognition and Measurement - Novation of Derivatives and Continuation of Hedge Accounting Amendment” (effective for periods beginning on or after January 1, 2014). Amendment makes it clear that there is no need to discontinue hedge accounting if a hedging derivative is novated, provided certain criteria are met. A novation indicates an event where the original parties to a derivative agree that one or more clearing counterparties replace their original counterparty to become the new counterparty to each of the parties. In order to apply the amendments and continue hedge accounting, novation to a central counterparty (CCP) must happen as a consequence of laws or regulations or the introduction of laws or regulations.

“IAS-19 Defined Benefit Plans: Employee Contributions” (effective for periods beginning on or after July 1, 2014). Amendment clarifies the requirements that relate to how contributions from employees or third parties that are linked to service should be attributed to periods of service. In addition, it permits a practical expedient if the amount of the contributions is independent of the number of years of service, in that contributions, can, but are not required, to be recognized as a reduction in the service cost in the period in which the related service is rendered.

“IAS-16 & 38 Clarification of Acceptable Methods of Depreciation and Amortization” (effective for periods beginning on or after January 1, 2016). Amendment clarifies that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate for property, plant and equipment. The amendment introduces a rebuttable presumption that an amortization method that is based on the revenue generated by an activity that includes the use of an intangible asset is inappropriate, which can only be overcome in limited circumstances where the intangible asset is expressed as a measure of revenue, or when it can be demonstrated that revenue and the consumption of the economic benefits of the intangible asset are highly correlated. The amendment adds guidance that expected future reductions in the selling price of an item that was produced using an asset could indicate the expectation of technological or commercial obsolescence of the asset, which, in turn, might reflect a reduction of the future economic benefits embodied in the asset.

The Company expects that the adoption of the above amendments/interpretations to approved accounting standards in Pakistan will not affect the Company’s financial statements in the period of initial application.

2.7 List of new standards issued by the International Accounting Standard Board (IASB) but not yet notified for adoption locally by the Securities and Exchange Commission of Pakistan (SECP) for the year ended June 30, 2014 are as follows:

- IFRS 1 – First time adoption of international financial reporting standards
- IFRS 9 – Financial instruments
- IFRS 10 – Consolidated financial statements
- IFRS 11 – Joint arrangements
- IFRS 12 – Disclosure of interest in other entities
- IFRS 13 – Fair value measurement
- IAS 27 (Revised 2011) – Separate financial statements due to non-adoption of IFRS-10 and IFRS-11
- IAS 28 (Revised 2011) – Investments in associates and joint ventures due to non-adoption of IFRS 10 and IFRS 11.
NOTES TO AND FORMING PART OF THE
FINANCIAL STATEMENTS
for the year ended June 30, 2014

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented except as mentioned in note 3.20.

3.1 Taxation

a) Current

Provision for current tax is based on taxable income for the period determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the period if enacted. The charge for current tax also includes adjustments, where considered necessary, to existing provision for tax made in previous years arising from assessments framed during the period for such years.

b) Deferred

Deferred tax is accounted for using the balance sheet liability method in respect of all taxable temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized. Deferred tax is not recognized for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination; and that affects neither accounting nor taxable profit or loss, and differences arising on the initial recognition of goodwill. Deferred tax is calculated at the rates that are expected to apply to the period when the differences reverse, based on tax rates that have been enacted. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

3.2 Foreign currency translation

All monetary assets and liabilities in foreign currencies are translated into Pak Rupees at the rate of exchange prevailing at the balance sheet date or at the contracted rates while foreign currency transactions are initially recorded at the rate of exchange prevailing at the transaction date or at the contracted rates. Exchange risk fee is charged to profit and loss accounts. The Company charges all the exchange differences to profit and loss accounts.

3.3 Property, plant & equipment - owned

These are stated at cost less accumulated depreciation and accumulated impairment losses, if any, except freehold land which is stated at cost less accumulated impairment losses if any. Cost comprises of historical cost, exchange differences arising on translation of foreign currency loans, borrowing cost pertaining to the erection period and directly attributable costs of bringing the assets to working condition. These costs are transferred to specific assets as and when assets are available for use. Subsequent costs are included in the assets carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economics benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Cost incurred to replace a component of an item of property, plant and equipment is capitalized and the asset so replaced is derecognized. The cost of the day to day servicing of property, plant and equipment are recognized in profit or loss account. The cost of self constructed assets includes the cost of materials, direct labor and any other cost directly attributable to bringing the assets to a working condition for their intended use.
Depreciation is charged to income applying the reducing balance method at the rates given in relevant notes to the financial statements to write off the cost of operating fixed assets over their expected useful life. Depreciation on additions is charged from the date when the asset is available for use and on deletions up to the date when the asset is deleted. An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or derecognition (calculated at the difference between the net disposal proceeds and carrying amount of the asset) is taken to profit and loss account.

Impairment test for property, plant and equipment is performed when there is an indication of impairment. At each period end, an assessment is made to determine whether there is any indication of impairment. If any such indications exist, an estimate of the asset’s recoverable amount is calculated being the higher of the fair value of the asset less cost to sell and the asset’s value in use. If the carrying amount of the asset exceeds its recoverable amount, the property, plant and equipment is impaired and an impairment loss is charged to the profit and loss account so as to reduce the carrying amount of property, plant and equipment to its recoverable amount. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm’s length transaction between knowledgeable and willing parties. Value in use is determined as the present value of the estimated future cash flows expected to arise from the continued use of the property, plant and equipment in its present form and its eventual disposal. An impairment loss is recovered if there has been a change in the estimate used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset’s carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

Capital work in progress is stated at cost accumulated to the balance sheet date including borrowing costs less impairment losses, (if any). The costs are transferred to fixed assets as and when assets are available for use.

3.4 Stores and spares
These are valued at cost determined on weighted average basis less provision for slow moving and obsolete stores and spares. Items in transit are valued at invoice value plus other charges incurred thereon.

3.5 Stock in trade
These are valued at lower of cost and net realizable value.
Cost is determined as follows:
- Raw material: at weighted average cost
- Finished goods: at estimated manufacturing cost
- Wastage: at weighted average cost

Net realizable value of raw material inventory is determined on the basis of replacement cost, whereas net realizable value of finished inventory signifies the estimated selling price in the ordinary course of business less cost necessary to be incurred for its sale.

3.6 Trade and other receivables
Trade and other receivables are carried at original invoice amount being the fair value. Provision is made against debts considered doubtful of recovery whereas debts considered irrecoverable are written off.

3.7 Revenue recognition
(i) Revenue is measured at the fair value of the consideration received or receivable, and represents amount receivable or received in advance for goods supplied, stated net of discounts, returns and value added taxes. Revenue from sale of goods is recognized on delivery of goods to customers i.e. when the significant risk and rewards of ownership have been transferred to the customer.
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended June 30, 2014

(ii) Return on bank deposits and short term investments is recognized on a time proportion basis taking into account the principal outstanding and the interest applicable; and

(iii) Dividend income is recognized when the shareholder’s right to receive payment is established.

3.8 Borrowings and their costs
3.8.1 Interest bearing borrowings
Interest bearing borrowings are recognized initially at cost being the fair value of consideration received, less attributable transaction costs. Subsequent to initial recognition, interest bearing borrowings are stated at original cost less subsequent repayments.

3.8.2 Interest-free borrowings at cost
In the absence of the availability of a realistic means for determining fair value, these loans have been stated at cost.

3.8.3 Borrowing costs
Borrowing costs are recognized as an expense in the period in which these are incurred except to the extent of borrowing cost that are directly attributable to the acquisition, construction or production of a qualifying assets. Such borrowing costs, if any are capitalizable as part of the cost of the asset.

3.9 Provisions
Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation.

3.10 Contingent liabilities
Contingent liability is disclosed when the Company has a possible obligation as a result of past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or the Company has a present legal or constructive obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of obligation cannot be measured with sufficient reliability.

3.11 Impairment
a) Financial assets
A financial asset is considered to be impaired if objective evidence indicates that one or more events had a negative effect on the estimated future cash flow of that asset. An impairment loss in respect of a financial asset measured at amortized cost is calculated as a difference between its carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its current fair value. Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

b) Non-financial assets
The carrying amount of the Company’s non financial assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such indications exist, the asset’s recoverable amount is estimated in order to determine the extent of the impairment loss, if any. Impairment loss is
recognized as expense in the profit and loss account. An impairment loss is reversed only to the extent that the asset’s carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

3.12 Dividend and appropriations to reserves
Dividend distribution to the Company’s shareholders and appropriation to reserves is recognized in the financial statements in the period in which these are approved.

3.13 Cash and cash equivalents
Cash and cash equivalents are carried at cost. For the purpose of cash flow statement, cash and cash equivalents comprise cash, cheques in hand, balances with banks on current, saving and deposit accounts and short term borrowings under mark-up arrangements.

3.14 Trade and other payables
Liabilities for trade and other payables are measured at cost which is the fair value of the consideration to be paid in the future for goods and services received.

3.15 Financial instruments
All financial assets and liabilities are recognized at the time when the company becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are initially measured at cost, which is the fair value of the consideration given and received respectively. These financial assets and liabilities are subsequently measured at fair value, amortized cost or cost as the case may be.

A financial asset is de-recognized when the company loses control of its contractual rights that comprise the financial asset. A financial liability is de-recognized when it is extinguished. Any gains or losses on de-recognition of the financial assets or liabilities are taken to profit and loss account currently. The Company recognizes the regular way purchase or sale of financial assets using settlement date accounting.

Financial assets and liabilities are offset and the net amount is reported in the balance sheet if the Company has a legally enforceable right to setoff the recognized amounts and the Company intends to settle on a net basis, or realize the asset and settle the liability simultaneously.

3.16 Related party transactions
Related party”, in relation to a company, means an entity which has the ability to control the company or exercise significant influence over the company in making financial and operating decisions or vice versa and includes the following, namely:__

a) entities that directly or indirectly through one or more intermediaries control, or are controlled by, or are under common control with, the reporting company including holding companies, subsidiaries and fellow subsidiaries

b) individuals owning, directly or indirectly, an interest in the voting power of the reporting company that gives them significant influence over the company, and close members of the family of any such individual;

c) key management personnel, that is, persons having authority and responsibility for planning, directing and controlling the activities of the reporting company including directors and officers of such company and close members of the families of such individuals;
NOTES TO AND FORMING PART OF THE
FINANCIAL STATEMENTS
for the year ended June 30, 2014

d) Entities in which a substantial interest in the voting power is owned, directly or indirectly, by any person described in clause (c) or (d) or over which such person is able to exercise significant influence including entities owned by directors or major shareholders of the reporting company and entities that have a key management personnel in common with the reporting company;

In considering each possible related party relationship, attention should be directed to the substance of the relationship and not merely to the legal form. All transactions between Company and related parties are accounted for at arm’s length price in accordance with "Comparable Uncontrolled Price Method", except as explained in relevant notes, if any.

3.17 Earning per share
The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, for the effects of all diluted potential ordinary shares.

3.18 Investments
Investments available for sale
These are initially measured at their fair value plus directly attributable transaction cost and at subsequent reporting dates measured at fair values and gains or losses from changes in fair values other than impairment loss are recognized in other comprehensive income until disposal at which time these are recycled to profit or loss. Impairment loss on investments available for sale is recognized in the profit or loss.

3.19 Staff retirement benefits - defined benefit plan
Defined benefit plan defines the amount which an employee will receive on or after retirement, usually dependant on one or more factors such as age, years of service, and compensation. The liability recognized in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of any plan assets. The defined benefit obligation is calculated annually by an independent actuary using projected-unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash flows using interest rates of high quality corporate bonds or the market rates on government bonds.

The defined benefit plan represents an approved unfunded gratuity scheme for all its permanent employees subject to a minimum qualifying period of service according to the terms of employment. The amounts of retirement benefits are usually dependant on one or more factors such as age, years of service and salary. Provision is made annually to cover obligation under the scheme. Latest valuation was conducted on June 30, 2014. All actuarial gains and losses are recognized in other comprehensive income as they occur.

3.20 Segment Reporting
Segment information is presented on the same basis as that used for internal reporting purposes by the Chief Operating Decision Maker, who is responsible for allocating resources and assessing performance of the operating segments. On the basis of its internal reporting structure, the Company considers itself to be a single reportable segment. An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses. The financial information has been prepared on the basis of single reportable segment.
3.21 Share Capital

Ordinary shares are classified as equity and recognized at their fair value. Incremental costs directly attributable to the issue of new shares or options are shown in equity as deduction, net of tax, from the proceeds.

3.22 Operating leases

Rentals payable under operating leases are charged to profit or loss on a straight line basis over the term of the relevant lease.

3.23 Change in accounting policy

‘IAS 19 (revised) - ‘Employee Benefits’ effective for annual periods beginning on or after January 1, 2013 amends the accounting for employee benefits. The standard requires immediate recognition of past service cost and also replaces the interest cost on the defined benefit obligation and the expected return on plan assets with a net interest cost based on the net defined benefit asset or liability and the discount rate, measured at the beginning of the year.

Further, a new term ‘remeasurements’ has been introduced. This is made up of actuarial gains and losses, the difference between actual investment returns and the return implied by the net interest cost. The standard requires ‘remeasurements’ to be recognized in the balance sheet immediately, with a charge or credit to Other Comprehensive Income in the periods in which they occur.

Following the application of IAS 19 (revised) - ‘Employee Benefits’, the Company’s policy for Staff Retirement Benefits in respect of ‘remeasurements’ stands amended as follows:

- The amount arising as a result of remeasurements are recognized in the balance sheet immediately, with a charge or credit to Other Comprehensive Income in the periods in which they occur.

- The change in accounting policy has been accounted for retrospectively in accordance with the requirements of IAS 8 ‘Accounting Policies, Changes in Accounting Estimates and Errors’ and comparative figures have been restated.

The Company’s financial statements are affected by the ‘remeasurements’ relating to prior years. The effects have been summarized below:

<table>

12.1 Government of Pakistan (GoP) imposed regulatory duty on export of scrap and steel products with the objective to protect the local steel industry. This duty was not applicable in respect of goods manufactured and exported...
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended June 30, 2014

from raw material imported under the DTRE scheme or in manufacturing bonded warehouse. However, the company under protest deposited the regulatory duty to clear the export consignments at that time. This fact is also evident from the subsequent withdrawal by Federal Board of Revenue (FBR) from exports made out of finished goods manufactured from raw material imported in manufacturing bonded warehouse or under DTRE regime. The matter is pending with custom authorities after decision of Honorable High Court. The Company is highly confident that the duty would be refunded.

### 19.1 Retirement benefit obligations - unfunded gratuity plan

As stated in Note. 3.19 the Company operates a defined benefit plan which comprises of an approved unfunded gratuity scheme for its permanent employees. The scheme defines the amounts of benefit that an employee will receive on or after retirement subject to a minimum qualifying period of service under the scheme. Actuarial valuation of the scheme is carried out every year and the latest actuarial valuation was carried out on June 30, 2014 using Projected Unit Credit method by an approved actuary.

The latest actuarial valuation of the fund was as at June 30, 2014 was carried out using Projected Unit Credit Method. Details of the fund as per the actuarial valuation are as follows:

<table>
<thead>
<tr>

<td><strong>6,215,282</strong></td>
<td><strong>4,174,599</strong></td>
<td><strong>10,411,112</strong></td>
</tr>
</tbody>
</table>

19.1.6 Key actuarial assumptions used:

- Discount rate used for interest cost %: 10.50% (2013), 10.50% (2012)
- Discount rate used for benefit obligation %: 13.25% (2013), 10.50% (2012)
- Future salary increased %: 12.25% (2013), 9.50% (2012)
- Next salary increase: 42,186 (2013), 41,640 (2012)
- Retirement assumption: Age 60 (2013), Age 60 (2012)
- Actuarial valuation method used: Projected unit credit method

Expenses of defined benefit plan is calculated by the actuary. Figure in this note are based on the latest actuarial valuation carried out as at June 30, 2014.

19.1.7 Sensitivity analysis for actuarial assumptions

The sensitivity of the defined benefit obligation to changes in the weighted principle assumptions is:

<table>
<thead>
<tr>
<th>Assumption</th>
<th>Change in assumption</th>
<th>Increase in assumption</th>
<th>Decrease in assumption</th>
</tr>
</thead>
<tbody>
<tr>
<td>Discount rate</td>
<td>1.00%</td>
<td>32,471,875</td>
<td>38,521,346</td>
</tr>
<tr>
<td>Salary increase</td>
<td>1.00%</td>
<td>38,587,361</td>
<td>32,366,080</td>
</tr>
</tbody>
</table>

There is no significant change in the obligation if the life expectancy increases by 1 year. The sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

Based on actuary’s advice, the amount of expected contribution to gratuity and pension funds in 2014-15 will be Rs. 16.319 million.

19.1.8 Expected benefit payments for the next 10 years and beyond:

NOTES TO AND FORMING PART OF THE
FINANCIAL STATEMENTS
for the year ended June 30, 2014

30.3 Company’s income from export sales is subject to final tax liability [Final Tax Regime] under section 154 [4] of the Income Tax Ordinance, 2001. Tax charge on local sales and profit on bank deposits is subject to normal tax under relevant provision of the Ordinance. During the period, the tax liability on account of alternate corporate tax payable and final taxes payable has been adjusted against the tax credit available U/S 65B of the Ordinance and hence no provision for taxation has been provided in these financial statements.

Change in the rate of corporate tax from 35% to 34% by the Government has been enacted.

Following are the list of pending cases against the company, It is expected that all cases mentioned will be decided in favor of the company as per the legal counsel.

The initiation of the proceedings under section 161/205 of Income Tax Ordinance, 2001, in respect of tax year 2009 and 2010 have been challenged in the Honorable High Court through writ petition no. 12950/2012. After hearing the counsel of the petitioner, the learned judge in chamber was pleased to put the Federal Board of Revenue and Inland Revenue Department to notice while the concerned ACIR was restrained from passing any adverse order against the tax payer. The said writ petition is pending adjudication before the court.

Writ petition no. 8170/2011 was filed before the honorable Lahore High Court, thereby challenging audit proceeding under section 177 of the Income Tax Ordinance, 2001 in respect of tax year 2009. The court having heard the petition issued notices to the department and restrained the department from passing final order against the tax payer. The judgment of the honorable court is still awaited.

The Income Tax Return of the tax payer for the Tax Year 2004 was selected for audit under section 177, against which a writ petition no. 12475/2009 was filed before the honorable Lahore High Court, which was disposed off vide order dated October 22, 2009. Appeal has been filed before the Honorable Supreme Court of Pakistan against the order of the Honorable Lahore High Court. The case is still pending for adjudication before the Supreme Court of Pakistan.

Income Tax Return for the year 2008 was selected for Audit under section 177 of the Income Tax Ordinance 2001. Writ petition no. 5825/2009 was filed before the Honorable Lahore High Court, which was disposed off vide judgment dated July 14, 2009. Appeal has been filed before the honorable Supreme Court of Pakistan against the above order.

An appeal against order dated May 16th 2012 passed under section 161/2005 of the Income Tax Ordinance 2001 in respect of tax year 2011 was filed before commissioner inland revenue [appeals IV], Lahore by the tax payer. The CIR [A] remanded the case back to assessing officer. Cross Appeal have been filed before the Appellate Tribunal Inland Revenue, Lahore Bench, which are still pending.

An appeal against order dated May 16th 2012 passed under section 161/2005 of the Income Tax Ordinance 2001 in respect of tax year 2011 was filed before commissioner inland revenue [appeals IV], Lahore by the tax payer. The CIR [A] remanded the case back to assessing officer. Cross Appeal have been filed before the Appellate Tribunal Inland Revenue, Lahore Bench, which are still pending.

Appeal has been filed before the honorable appellate tribunal Inland Revenue Lahore Bench, Lahore against the order passed by the CIR [Appeals-II] Lahore in respect of Tax Year 2011 on the issue of amendment of assessment under section 122(5) of the Ordinance. Appeal is pending adjudication till date.

Appeals against separate orders, passed under section 122(5) of the income tax ordinance 2001, in respect of tax year 2011, 2012 were passed by the learned additional commissioner inland revenue, audit range, zone, IV, regional tax office, Lahore which have been impugned in appeal before the learned commissioner Inland revenue [appeals - III], Lahore and are still pending for decision.
Pending Before Appeal against O-in-Original/ Remarks
O-in-Appeal No. & date.

36.1 No meeting fee has been paid to any director of the Company during the period. Chief executive and directors are provided with Company maintained cars for business use only. Executives include employees whose annual basic salary is more than Rs. 500,000/-. 
37. **FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES**

37.1 Risk management framework

The Company’s activities expose it to a variety of financial risks. The Board of Directors has overall responsibility for the establishment and oversight of the Company’s risk management framework. The Board is also responsible for developing and monitoring the Company’s risk management policies. The Board meets frequently throughout the year for developing and monitoring the Company’s risk management policies. The Company’s risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company’s activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended June 30, 2014

37.2.1 The respective interest/markup rates for the monetary financial asset and liabilities are mentioned in respective notes to the financial statements.

37.2.2 Fair value

The carrying values of the financial assets and financial liabilities approximate their fair values except for loans from related parties and long term investments in subsidiary as disclosed in note. 18 and 5 respectively to the financial statements. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm’s length transaction. If the transaction is not based on market terms, or if a market price cannot be readily determined, then an estimate of future cash payments or receipts, discounted using the current market interest rate for a similar financial instrument, is used to approximate the fair value.

37.3 Financial Risk Factors

The Company is exposed to the following risks from its use of financial instruments:

- Credit Risk
- Liquidity Risk
- Market Risk

37.4 Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations, and arises principally from investments, long term security deposits, advances to employees, deposits, trade debts, other receivables and bank balances. The carrying amount of financial assets represents the maximum credit exposure before any credit enhancements. The maximum exposure to credit risk at the reporting date was:

<table>
<thead>
<tr>
<th>Rupees</th>

</tr>
</tbody>
</table>

Geographically there is no concentration of credit risk. The maximum exposure to credit risk for trade debts at the reporting date are with dealers within the country. Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their abilities to meet contractual obligation to be similarly affected by the changes in economic, political or other conditions. The Company believes that it is not exposed to major concentration of credit risk.

The Company’s most significant amount receivable is from Mughal Steel Metallurgies Corporation Limited (2013: M/s Khalid Rauf). This is included in total carrying amount of trade receivables as at reporting date.

Bank balances are held only with reputable banks with high quality credit ratings. Advances to employees are not exposed to any material credit risk since these are secured against their salaries / gratuity payable. Geographically there is no concentration of credit risk as all export sales are against advances. The maximum exposure to credit risk for trade debts at the reporting date are with customers within the country.

The Company’s exposure to credit risk is influenced mainly by the individual characteristics of each customer. To manage exposure to credit risk in respect of trade receivables, management reviews credit worthiness,
references, establish purchase limits taking into account the customer’s financial position, past experience and other factors. For trade debts, internal risk assessment process determines the credit quality of the customers, taking into account their financial positions, past experiences and other factors. Aging of trade debts is regularly reviewed by the Board and necessary actions are taken in respect of overdue balances. The company assesses the credit quality of the counter parties as satisfactory.

Based on past experience, the management believes that no impairment allowance is necessary in respect of trade debts.

37.5 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company’s approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company’s reputation. The Company uses different methods which assists it in monitoring cash flow requirements and optimizing its cash return on investments. Typically the Company ensures that it has sufficient cash on demand to meet expected operational expenses for a reasonable period, including the servicing of financial obligation; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters. In addition, the Company maintains lines of credit as mentioned in note. 22 to the financial statements.

The contractual maturities of financial liabilities have been disclosed in Note. 17 above. It is not expected that the cash flows included in the maturity analysis could occur significantly earlier or at significantly different amounts.

37.6 Market risk

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market interest rates or the market price due to change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities and liquidity in the market. The Company incurs financial liabilities to manage its market risk. All such activities are carried out with the approval of the Board. The Company is exposed to interest rate risk, foreign currency risk and market price risk.

Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign currency risk arises mainly from future commercial transaction or receivables and payables that exist due to transactions in foreign currencies. The Company is not exposed to foreign currency risk.

Interest Rate Risk

The interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Majority of the interest rate exposure arises from short and long term borrowings from banks and short term deposits with banks. At the balance sheet date the interest rate risk profile of the Company’s interest bearing financial instruments is:

| Financial Liabilities | 3,246,157,215 | 1,381,193,347 |

Cash flow sensitivity analysis for variable rate instruments

As at June 30, 2014, if interest rates on Company’s bank borrowings had been 1% higher / lower the markup expenses would have been higher / lower by Rs.19.943 million.
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended June 30, 2014

Price Risk
Price risk represents the risk that fair value of financial instrument will fluctuate because of changes in the market prices, whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factor affecting all or similar financial instruments traded in the market. Equity price risk arises from available for sale equity securities held. The investment in available for sale equity securities is not material and Company is not exposed to significant price risk.

38. CAPITAL RISK MANAGEMENT
The Board’s policy is to maintain an efficient capital base so as to maintain investor, creditor and market confidence and to sustain the future development of its business. The Board of Directors monitors the return on capital employed, which the Company defines as operating income divided by total capital employed. The Board of Directors also monitors the level of dividends to ordinary shareholders. The Company’s objectives when managing capital are:

(i) to safeguard the entity’s ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders and;

(ii) to provide an adequate return to shareholders.

The Company manages the capital structure in the context of economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may, for example, adjust the amount of dividends paid to shareholders, issue new shares, or sell assets to reduce debt.

39. DATE OF AUTHORIZATION
These financial statements have been authorized for issue by the Board of Directors of the Company on 02 September, 2014.

40. GENERAL
